DETAILED ACTION

Specification

1. The amendment filed November 4, 2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

In paragraph [003], "dissolved nutrients or metals" is broader in scope than "fertilizer" since fertilizer may contained "dissolved nutrients or metals" but a substance containing "dissolved nutrients or metals" is not necessarily a fertilizer.

In paragraph [038], the original specification and drawings do not show a weir that is substantially equal in height to the baffle port. The weir disclosed and illustrated clearly exceeds the height of the baffle port.

Applicant is required to cancel the new matter in the reply to this Office Action.

Allowable Subject Matter

2. Claims 1-31 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: The claims are allowed for the reasons provided in the Office Action mailed to applicant on September 29, 2004.

Art Unit: 1724

Conclusion

4. This application is in condition for allowance except for the following formal matters:

Cancellation of the new matter noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
